

# PERFORMANCE TURF

BRINGING THE FIELD INSIDE

# THOR PERFORMANCE TURF

Our indoor performance training turf is all infill free, meaning no rubber, no sand, just turf. With the rise of less traditional methods of fitness training, using the right quality turf has become a necessity, rather than just an option. Thor Performance Turf is market tested, and has proven itself in the following applications over the years:

Collegiate Athletics

Personal Training Studios

Health Clubs

Indoor Fields

Physical Therapy Offices

Recreation Centers

# Thunder 5

Our low-pile performance turf for speed and agility training, Thunder 5, is perfect for the old school turf veteran that likes their turf a little rough. Available in 8 colors.

**GREEN**

**ORANGE**

**RED**

**TERRACOTTA**

**WHITE**

**YELLOW**

**BLACK**

**BLUE**

## Thunder 40

---

Thunder 40 is our most popular turf for a number of reasons - it handles the abuse of weighted sleds, medicine balls, ropes, and other agility tools, it is available in 5 colors, and as one of our entry-level turfs it is budget friendly.

## Thunder 40

---

**GREEN**

**RED**

**WHITE**

**BLUE**

**BLACK**

---

## Thunder **55**

---

Thunder 55 is for those ready to step up to the next level of indoor performance turf. Thunder 55 has a very thick construction, making it the premium choice for those looking for a quality, long-term investment in their facility. Thunder 55 is available in select colors upon request.

## Lightning **STRIKE**

Lightning Strike is our top of the line indoor performance turf, featuring a full nylon fiber construction. We look at Lightning Strike as being the closest thing to achieving an outdoor field, inside your facility. It looks, feels, and plays like a field should, which makes it the choice of anyone looking to simulate that level of performance for indoor training.
